LEARN WHAT the stars and planets say about your future. If you expect to make any changes during the year, by all means have an Astrologer point out the days and dates when the planets are favorable for your interests. These are critical times and you need counsel and advice as never before. If you have made errors in the past see that you do not make them in the future. There is no disputing the fact that the Astrologer can point out with remarkable accuracy and foretell coming events which are beyond the power of the average mind to foresee.

Surely you are interested in yourself and want to know more about your future. We send you a lengthy Astrological Reading covering the entire year; one that you can consult today and prepare for what is coming tomorrow. As long as your star of Destiny is favoring you, your affairs will run smooth and prosper, but when the planets are in evil aspect everything goes wrong, you then say you are having "bad" luck. Surely this has come to your notice. From the Astrologer's view the year 1920 will be the most eventful year in the world's history. Many a fortune will be made and lost. Therefore, when you have an important matter to decide, and are at a loss as to what is best to be done, it is only necessary to consult your annual forecast, which fully covers Business Matters, Change of Location, Speculation, Travel, Love Courtship, Marriage, Health, Accidents, Lucky days, etc., in details for the entire year.

We trust that you will avail yourself of this opportunity, for \$2 spent today may save you years of unhappiness. Send \$2.00, your full birthdate. Remit by P. O. Order. Do it Now, Tomorrow may be too late.

## TULSA COLORED LIBRARY

MADE ATTRACTIVE  
Librarian Succeeds in Obtaining Additional Consideration on Part of Authorities.

The rain storm accompanied by thunder and lightning last Wednesday night indicates that the back of winter is broken, and spring, gentle spring is here, or near any way. And just to think that day our Colored Librarian had had set up in the reading room of the Colored Library on Archer street, a large

and handsome stove capable of radiating its generous heat to the farthest nooks of the room. The installation of this new stove was necessary, especially because during all the coldest days of the past winter, the Assistant Librarian, Mrs. A. Smithman has been up against the problem of trying to keep warm enough to feel she was still alive. The problem of stoves and heating is a matter that confronts the Librarian, and no one else and must come out of the pitiful allowance made to maintain this institution. And that is not all, there is the salary of the Assistant Librarian and many incidental expenses gas, lighting, cleaning and the like, which must be met by the Librarian, and on top of that he is furnishing his own building as quarters for the library for the use of the Colored People of Tulsa. Surely that is a burden for one man to assume and carry on successfully.

Many other Sinbad, carrying such a load, would quite naturally devote considerable time urging a greater allowance, through which he personally might realize relief and benefit. But not so, through the efforts of Mr. A. J. Smithman, Librarian, the local authorities have been made wise to the primitive conditions found at the Colored Library, as compared with those provided for the whites at the magnificent public library downtown, and as the result of his efforts a greater degree of interest is to be shown and the Colored Library made more attractive, interesting and suitable as a place for young people to go and read. Among other things in anticipation, it is planned to place on the shelves a full line of the works of Negro authors and popular magazines. There is every reason to believe when the Colored People of Tulsa themselves show wider interest in this institution, that it will soon become one of such character and usefulness, that one and all will take pride in it.

In addition, it may be said Mr. Smithman, Librarian, has offered the use of the library room free of charge for night meeting purposes by any Tulsa organization interested in Race uplift.—(Hack).

## "WHAT A DAINTY HAT"

"What a dainty little hat! Where did you buy it?"

"I didn't buy it. I made it with my two hands. It's that sailor frame I wore two years ago—don't you remember—dyed and trimmed with a piece of chiffon and a few flowers from an old hat I found in the attic. That purple ribbon? Why, that's a piece of old satin scarf. I got the idea out of the Weekly Kansas City Star."

The Weekly Kansas City Star is helping thousands of women dress becomingly without falling prey to the clothing and millinery profiteers. By special arrangement with the

publishers of the Weekly Kansas City Star, we are able to offer the Tulsa Star and The Weekly Kansas City Star at a special low rate. The regular price of the Weekly Star is 50 cents a year; the price of The Tulsa Star is \$2.00 a year. The price for both papers one year is \$2.00. If you are already a subscriber to either or both papers, your time will be extended one year under this offer. Subscription prices all over the country are advancing. Take advantage of this unusual inducement. Bring or send your order to The Tulsa Star office today.
